12' Above Ground Pole Anchor Bolted onto Mailbox Concrete Area 12' Above Ground Pole that will be anchor bolted onto the concrete area surrounding the mailbox cluster instead of the grassy area around mailbox. Includes setup of light pole and solar light fixture at the top of the pole. Also includes installation and labor.	6	505.00	8.25%	3,030.00
Series N1-10W Solar LED Light Fixture 10W Solar LED Light Fixture, 1000 Lumens, 6000K Color Temperature, (5 Year Product Warranty), Dusk to Dawn Lighting Operation.	6	235.00	8.25%	1,410.00

Sub Total 4,440.00
Tax 366.30
Total 4,806.30
Paid 0.00

Amount Due: USD 2,403.15

Notes

SAT Energy Solar LED Lighting Invoice for the illuminate of 6 mailbox clusters for Bradford Park. The project will include the installation of 6 Light Poles anchor bolted onto the concrete portion of the mailbox cluster with the solar light fixture mounted at the top instead of being installed onto the grassy area near the mailbox. We will not be able to install solar lighting at the mailbox cluster located across the street from 3008 Bradford Park as that cluster is fully covered by tree shading and will not allow our solar light fixture to receive a proper charge during the day.

Terms

50% Deposit Amount required before initiating the Mailbox Solar LED Lighting Project Installation. Remaining Balance due upon completion of the Mailbox Solar LED Lighting Project Installation.
